Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, Applicant's submission filed on 05/25/2005 has been entered and the notice of non-responsive reply of 5/5/2005 is vacated.

- . This office action is in response to Applicants' amendment of 12/02/2004.
- . **Claims 1-16** are cancelled; **Claims 17-22** are added and remain pending.
- . The objections and prior art claim rejections of record are withdrawn in response to Applicants' amendment.

### Abstract

#### 1.0 Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 250 words. It is important that the abstract not exceed 250 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

#### 1.1 The abstract of the disclosure is objected to because said abstract does not adequately convey the gist of the claimed invention. Correction is required. See MPEP § 608.01(b).

### Claim Objections

#### 1.2 The Claims recite, in passim, 'weather' instead of 'whether.' Claim 18 line 5 recites 'steam' instead of 'stream.' Correction is required.

### Claim Rejections - 35 USC § 112

2. The following is a quotation of the **second** paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2.1 **Claims 17-22** are rejected under the second paragraph of 35 U.S.C. 112 because:

- it is not clear to the **Examiner** how '*deleting data interval*' results in rendering *data* '*not understandable*' to '*a subsequent decoder*' in **Claim 17** and intervening Claims;
- it is also not clear to the **Examiner** how '*a subsequent decoder*' can process *data stream output (last limitation)* when such same data stream was previously rendered '*not understandable*' to '*the subsequent decoder*' (*penultimate limitation*) in **Claim 17** and intervening Claims.

2.2 Due to the ambiguities and confusion in said **Claims 17-22**, no art has been applied thereto, see *In re Steele*, 49 CCPA 1295, 305 F.2d 859, 134 USPQ 292 (1962) and *In re Wilson*, 424 F.2d 1382, 165 USPQ 494 (CCPA 1970). The examiner will not speculate as to the intended meaning.
